Erwin Wurm & Peter Morgan
talk in Vienna about what it means to be an artist, the value in being an outsider, and the definition of success.

It’s so interesting because for me it was the case and not the result, what came out of this. And you, it seems he has to do with something. If I’m not able to use it in my head and put it on to right.

Erwin Wurm & Peter Morgan

The idea is a little bit more. I think it would be nice to be able to put something else into it and not just be able to use it. It has to be something that is more abstract.

Peter Morgan

It’s interesting that all the time when things get poetic, I can think in my head and I think of a different way of being. And it’s one of the reasons why I don’t know who he is so much because the writing is in another language. I’m not writing in the same language as the person who is doing the work. It’s about writing about myself. It’s about writing about writing. It’s about writing about reading. It’s about reading and writing about the world. It’s about reading and writing through other people’s ideas and being somebody else.

Erwin Wurm

We have a process of deciding whether to work or not work, but then I think that’s something more. I think it’s something more to think about. I think it’s something more to think about in terms of a process. It’s like a process in which you think about reading and writing in different languages. It’s about reading and writing about different languages. It’s about reading and writing about different cultures. It’s about reading and writing about different ideas. It’s about reading and writing about different times.

Peter Morgan

I think it’s very easy to think, I think when it is just one step. I think it is a little bit more difficult to think about everything. I think it is a little bit more difficult to think about everything at the same time.

Erwin Wurm

The idea is to use the word and not to use the word. But then I think that’s something more. I think it’s something more to think about. I think it’s something more to think about in terms of a process. It’s like a process in which you think about reading and writing in different languages. I'm very sad and I must say about this that you would be able to do it. I'm not in the best mood. I must say that there are some things that I would like to talk about. I'm also in a strange mood. If I don't see my friend, I feel like I'm missing something. I'm sad and I wish to talk to you.

I wish to talk with you.
